

Riverside Military Academy

2014-2015 Academy Profile

Riverside Military Academy, founded in 1907, is one of the nation's leading military college preparatory, boarding and day schools for young men in grades 7-12. Our mission is to prepare ethical young men of character for success in college and in life through the provision of a rigorous academic program, leadership opportunities, competitive athletics, extensive co-curricular activities, and the structure and discipline inherent in a military college preparatory school environment. Our Corps of Cadets is diverse, representing 29 states and 24 different countries. Riverside's 206-acre campus, located in Gainesville, Georgia, is situated on Lake Sidney Lanier in the foothills of the Blue Ridge Mountains.

Riverside is committed to teaching scholarship, character development skills, and personal integrity to help cadets become young men of distinction. Riverside's academic program provides a safe, structured educational environment that features small classes, individual tutoring, a caring and highly trained faculty, weekly grade reports, and study skills. The Academy's small class sizes, individualized attention, and frequent accountability are a proven formula for success.

Accreditation

Riverside holds dual-accreditation from the Southern Association of Independent Schools and the Southern Association of Colleges and Schools. Riverside is a member of the Southern Association of Independent Schools, the National Association of Independent Schools, The Association of Boarding Schools, and the Association of Military Colleges and Schools of the United States. Riverside's Military Science program is affiliated with the U.S. Army through the Junior Reserve Officers' Training Corps (JROTC) and has remained a JROTC Honor Unit with distinction for over 75 years.

Faculty

Over 67 percent of Riverside's dedicated and enthusiastic teaching faculty have earned a master's level degree or higher. Riverside places an emphasis on active-learning teaching strategies and professional development. We understand the way boys learn, and our teachers incorporate that knowledge into their classes.

High School Curriculum

(■) Honors class available

(♦) Advanced Placement class available
